# Mig S - FS

**MIG:** Trattamenti fuori e dentro le serre, nei tunnels e nelle coltivazioni fuori suolo.

Prodotto nelle versioni 400/500/600/800 litri, portato dal sollevatore a tre punti del trattore, munito di pompa a membrana e con possibilità di utilizzare contemporaneamente due differenti pressioni: una per la miscelazione continua della soluzione in cisterna e l'altra, per l'alimentazione dell'erogazione.

**MIG:** treatments inside and outside greenhouses, tunnels and for substratum cultivations.

It is produced with a 400/500/600/800 litres tank capacity, applied to a 3 point tractor with a diaphragm pump.

There is a possibility to use two different pressures at the same time: one to continue mixing the products inside the tank, and the other to supply the distribution.

**MIG:** pour le traitement à l'intérieur et à l'extérieur des serres, pour les tunnels et les cultures hors sol. Fabriquer en version 400/500/600/800 litres porte sur trois points.

Equipe d'une pompe piston membranes avec possibilité d'utilisation de 2 pressions différentes. Une pression pour l'hydromélangeur et une pression pour l'alimentation des jets.

**MIG FS**

**MIG S:** Versione standard per colture a terra e per alti fusti. Orientamento idraulico dal posto di guida 120°.

**MIG FS:** Versione colture fuori suolo, rotazione e orientamento verticale idraulico dal posto di guida di 120°.

**MIG S:** standard version for low cultivation and for high garden and park trees. 120° hydraulic orientation at the tractor.

**MIG FS:** A version for cultivation on substratum, rotation and 120° vertical orientation at the tractor.

**MIG S:** Version standard pour cultures basses et des végétations hautes avec orientation hydraulique de 120° du poste de conduite.

**MIG FS:** Version culture hors sol, rotation et orientation verticale de 120° du poste de conduite.

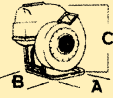

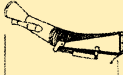

Optional: getto lancetta

Option: lance-jet

Option: jet-lance
